

DIVERSIO LEARNING

is your Trusted Partner in the US Diploma

Elevate your home education potential, enroll today!

Diversio Learning is an independently run alternative solution for education located in South Africa. We aim to equip parents to make the best decisions for their children's educational needs. We provide diverse homeschooling solutions with a globally accepted school-leaving outcome. Diversio Learning maintains affiliations with registered private schools in the U.S.A., which issue the official high school diploma.

HOW DOES IT WORK?

When you enroll in the Diversio Learning program, you enjoy a program specifically designed for you and your students. This can include a mix of textbook and online courses, classes taken at your homeschool co-op or other educational partners, and independent study where you can build your own courses. Students can use a mix of parent-graded assignments as well as auto-scored or advisor-graded assignments for online curriculum throughout the school year.

You will have the freedom & flexibility you desire, along with full support and the peace of mind that comes with an internationally accredited program. Parents can reach out to advisors with academic questions or grading and feedback questions. Advisors can also assist with special assignments to close academic gaps or provide more challenge for advanced students. Upon course completion, final grades are added to a student's permanent record or transcript, which can be easily accessed in your online portal.

Whether your child is a high academic achiever, has special learning needs, is a sports star, is a self-made entrepreneur, or is an artist wanting to follow their passions while completing school and aspiring to gain an international matric, you have found the answer. **ENROLL NOW** to make 2026 your best year!

WHAT ARE THE COSTS?

Costs are made up of three parts.

- 1 Diversio Learning Administrative Fee:** covers all administrative, academic advising, and support costs.
- 2 US partner school FAMILY Enrollment:** to receive recognition through official documentation (report cards, transcripts, certificates, and diplomas).
- 3 Curriculum fees depend** on family budget and student-specific needs and outcomes. **WE DO NOT PROVIDE CURRICULUM.** In our academic advising services, we provide details on curriculum options specifically designed for each student's educational development plan. No two students have the same educational plan!
